丁江 HAIR RENEWER Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old

patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring Geav or Fader Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hair-Dressing ever used, as it requires fewer applicaused, as it requires fewer applica-tions, and gives the hair a splendid, glossy appearance. A. A. Impurities or diseases that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scroffilous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures sternal Ulcerations of the Uterus, Stomach, and Liver. It also cores other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhæa, when they are manifestations of the scrotulous poisons.

It is an excellent restorer of health and strength in the Spring. By renew-ing the appetite and vigor of the diges-tive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with
